

## Early Childhood Center

---

At LifeWise StL, we're profoundly committed to nurturing and empowering future leaders of our community through our Early Childhood Center. Serving a vital role in providing high-quality childcare and preschool education, we presently accommodate 94 children ranging from 6 weeks to 5 years old.

A cornerstone of our mission is to assist primarily under-resourced families, many of whom are single-parent households, who need reliable childcare due to work, school, or training obligations. We are a proud partner site of the YWCA's Head Start and Early Head Start programs. Our partnerships and state subsidies ensure access to excellent childcare is within reach for our families.

## Wish List

---
